Lisa – Thanks for getting back to Walter so quickly. Nelly Torres, Mathy's scheduler, is going to reach out to the CAG to schedule the meeting. Mathy has a 10:00 so the meeting will have to be around 8:30 so I hope that works for you. I asked if she could schedule it at the hotel Mathy is staying at which I believe is very close to where you and Mathy need to be for the E.O. listening session.

Thanks,

Ellyn Krevitz Fine

Subject: RE: Arranging meeting for Mathy with Passaic CAG

Walter – please let Ellyn know that I am available. I currently have a mtg scheduled in Newark from

10:30 – 11:45am. I might be able to shift it if I know ASAP when the Passaic mtg will be.

I am not available at those times on Thursday. I will ask lisa Plevin if she could attend, but it would be helpful to know the actual time. tx

To the Passaic Team: See inquiry below from Mathy's Special Assistant. I will be out of town Thursday. Is anyone else available to join Mathy at this meeting, assuming it actually occurs?

Judith: If this meeting occurs, would you be inclined/available to attend?

Subject: Arranging meeting for Mathy with Passaic CAG

Hi Walter: Mathy will be in Newark this Thursday for the last chemical facility safety listening session. Please see the note below. He wants to offer time to the CAG reps to meet Thursday morning but wanted to have a Region 2 rep present, too. We can offer I think 8:00/8:30 or after 11:00 but before 1:00.

I don't know if Judith is available (heard she's attending the chem safety meeting in the evening). Who would you recommend?

Then, I'll have our scheduling folks coordinate.

Thanks, Ellyn

Subject: PASSAIC RIVER FFS

Dear Assistant Administrator Stanislaus

Debbie Mans from the NY/NJ Baykeeper and I co-chair the Passaic River Superfund Community Advisory Group in Newark, NJ. We submitted a letter cc'd to you and Administrator McCarthy on February 7th which is attached here, asking about the status of the Focused Feasibility Study which was due to be released earlier this year.

As you know from your work in our community, we are an environmental justice community facing many challenges including more than three decades with a Superfund river without action. We are eagerly awaiting a response from your office as to when the release of the FFS should be

expected. We would very much appreciate the opportunity to speak with you directly about this matter at your earliest convenience. Please let us know when you might be available to discuss further. You can also reach me directly via cell phone at 973-342-6056.

We look forward to hearing from you -
